CAMS® Enterprise Update Release 14.3.4

Revision Date: 07/12/2013

This document describes the items that are being deployed in the 14.3.4 CAMS Enterprise Update Release. Enhancements, modifications, and system corrections are included and are categorized primarily by module. Those items needing CAMS Manager attention have been noted as such. For additional, detailed information and instructions on the functionality additions and changes, refer to the online help files located directly in the CAMS Enterprise application and/or the updated PDF manuals which can be downloaded from the CAMS Community Website. Note that portal updates are not automatically installed on your site and must be applied by your institution.

Financial Aid

1. Upon clicking Update Fees when changing the Origination Fee Percent in Award Reference Yearly COD Parameters, amounts in awards with a blank “Sent to Billing” were not updated. These awards will now correctly update the amounts.

2. Single Packaging was calculating only from the default Yearly COD Parameter set in Award Reference regardless of the Distribution Date set in Yearly Setup. All Yearly COD Parameters are now correctly calculated when using Single Packaging.

***CAMS Manager Action Required
CAMS Managers will need to inform Financial Aid staff:
In Financial Aid >Setup >Award Reference click the Update Fees button for each Yearly COD Parameter that is NOT the default entry. This will update the Origination Fee Amount and Rebate Fee Amount in the Awards that fall within the dates of that Yearly COD Parameter.

3. Prioritized Packaging was not calculating Yearly COD Parameter Origination Fees correctly as set in Award Reference regardless of the Distribution Date set in Yearly Setup. All Yearly COD Parameters are now correctly calculated when using Prioritized Packaging.

***CAMS Manager Action Required
CAMS Managers will need to inform Financial Aid staff:
Prioritized Packaging will need to be ran again for any packages where Award Origination Fee Amounts were not calculated correctly.

Tools

1. The COD Export was adding Ability to Benefit codes to awards distributed prior to the 2014 Award Year which caused errors and prevented COD Export from completing. The Ability to Benefit is required by the Department of Education beginning with the 2014 Award Year. CAMS will no longer apply these codes to COD Exports prior to the 2014 Award Year.
Portal files that were added or changed with the 14.3.4 update.
No portal files were added or changed with this release.

SQL objects that were added or changed with the 14.3.4 update.
