

# Psychology Student Outcome Assessment

**Supervisor:** Please help us evaluate the degree to which we are reaching our goals for the students in the Psychology Department. Rate the student you supervised on their competency in light of the six outcomes we aim to achieve.

Student's Name: \_\_\_\_\_ Agency/Department Name: \_\_\_\_\_

Supervisor's Name: \_\_\_\_\_

Please evaluate the student's level of performance on the following:  
 Poor=1 Fair=2 Good=3 Outstanding=4

1. Integration and application of Christian faith with the study of psychology. 1 2 3 4 N/A

2. Foundational knowledge in the broad areas of study within psychology, including:

Human growth and development	1	2	3	4	N/A
Interpersonal skills	1	2	3	4	N/A
Personality theory	1	2	3	4	N/A
Biopsychology	1	2	3	4	N/A
Human relationships	1	2	3	4	N/A
Human sexuality	1	2	3	4	N/A
Psychopathology	1	2	3	4	N/A
Human Sensation, perception, motivation and learning	1	2	3	4	N/A
Research methods and statistics	1	2	3	4	N/A
Legal and ethical issues in the helping professions	1	2	3	4	N/A

3. Utilization of critical thinking skills to resolve issues related to behavioral, mental, and/or ethical processes. 1 2 3 4 N/A

Evidence of achievement of this learning outcome includes: unbiased inquiry, the ability to weigh evidence, the ability to tolerate ambiguity, and creative approaches to problem solving. Evidence of these abilities could also include: the student's ability to assess clients, develop treatment plans, evaluate progress, respond ethically, and to utilize appropriate referral resources.

4. Respect for the diversity of human behavior and experience. 1 2 3 4 N/A

Evidence of achievement of this learning outcome includes the student's awareness of their own culture and the impact of their behaviors/beliefs/values on individuals from cultures different than their own. It also includes knowledge of the behavior/beliefs/values of other cultures that leads to sensitize interaction with others.

5. Skillful communication with individuals and groups. 1 2 3 4 N/A

6. Personal growth emerging from study in the major. 1 2 3 4 N/A

Evidence of the achievement of this learning outcome includes: student's increased self awareness/self understanding, growth in directing their own learning, clarity in the sense of vocation/calling, and understanding of personal and academic limitations in their preparation.
